# **BOOK EXERCISE**

| Α. | Tic                                | ick ( $\checkmark$ ) the correct options.            |     |  |  |  |  |
|----|------------------------------------|--|-----|--|--|--|--|
|    | 1.                                 | Which is an optional part of a computer?             |     |  |  |  |  |
|    |                                    | a. Monitor   | ()  |  |  |  |  |
|    |                                    | b. Printer   | (√) |  |  |  |  |
|    |                                    | c. Mouse   | ()  |  |  |  |  |
|    | 2.                                 | Which of the following is not an input device?       |     |  |  |  |  |
|    |                                    | a. Joystick  | ()  |  |  |  |  |
|    |                                    | b. Touchscreen                                       | ()  |  |  |  |  |
|    |                                    | c. Headphone   | (√) |  |  |  |  |
|    | 3.                                 | . Identify the part which is used to play games.     |     |  |  |  |  |
|    |                                    | a. Barcode reader                                    | ()  |  |  |  |  |
|    |                                    | b. Microphone  | ()  |  |  |  |  |
|    |                                    | c. Joystick  | (√) |  |  |  |  |
|    | 4.                                 | 4. Which device is known as the brain of the compute |     |  |  |  |  |
|    |                                    | a. Hard Disk   | ()  |  |  |  |  |
|    |                                    | b. CPU   | (√) |  |  |  |  |
|    |                                    | c. Power supply                                      | ()  |  |  |  |  |
|    | 5. Which device is called the VDU? |  |     |  |  |  |  |
|    |                                    | a. Monitor   | (√) |  |  |  |  |
|    |                                    | b. Biometric device                                  | ()  |  |  |  |  |
|    |                                    | c. Touchscreen                                       | ()  |  |  |  |  |
|    |                                    |  |     |  |  |  |  |

### B. Fill in the blanks.

| Motherboard | RAM | printer | CPU | monitor |
|-------------|-----|---------|-----|---------|
|-------------|-----|---------|-----|---------|

- **1.** The *monitor* shows whatever you do on the computer.
- 2. The *motherboard* is the main board on which all the parts are fixed or connected.
- **3.** The <u>**RAM**</u> stores information temporarily.
- **4.** The <u>CPU</u> is known as the brain of the computer.
- 5. A *printer* prints the output on paper.

## C. Write the names of devices under the correct heading

| Monitor  | Keyboard                  |  |
|----------|---------------------------|--|
| Headphor | ne Microphone             |  |
| Printer  | Touchpad                  |  |
| Speaker  | Scanner                   | )                                      |
|          | /                         |  |
|          |                           |  |
| Ans.     | INPUT DEVICES             | OUTPUT DEVICES                         |
| Ans.     | INPUT DEVICES<br>Keyboard | <mark>OUTPUT DEVICES</mark><br>Monitor |
| Ans.     |                           |  |
| Ans.     | Keyboard                  | Monitor                                |

#### D. Answer in one word-

| <ol> <li>A device that is used to take printouts.</li> </ol>  | <u>Printer</u>  |
|---|-----------------|
| 2. A device that enables you to point at items.               | Mouse           |
| <b>3.</b> A device that allows to scan the text and graphics. | <u>Scanner</u>  |
| 4. It is called the visual display unit of the computer.      | <u>Monitor</u>  |
| 5. A device that allows you to enter text into the computer.  | <u>Keyboard</u> |

# **CLASS NOTES**

### E. Answer the following questions:

- 1. Write names of the essentials parts of a computer.
  - CPU
  - Keyboard
  - Mouse
  - Monitor
- 2. What is the processing device?

**Ans.** The CPU is called the processing device of a computer. It processes the instructions to generate results.

- 3. Name any two internal parts of system unit.
  - Motherboard
  - Hard disk
